MODELS... INFINITE VARIATION

Outdoor beauty is part of your P & H Home, with the Thermopane window-walls.

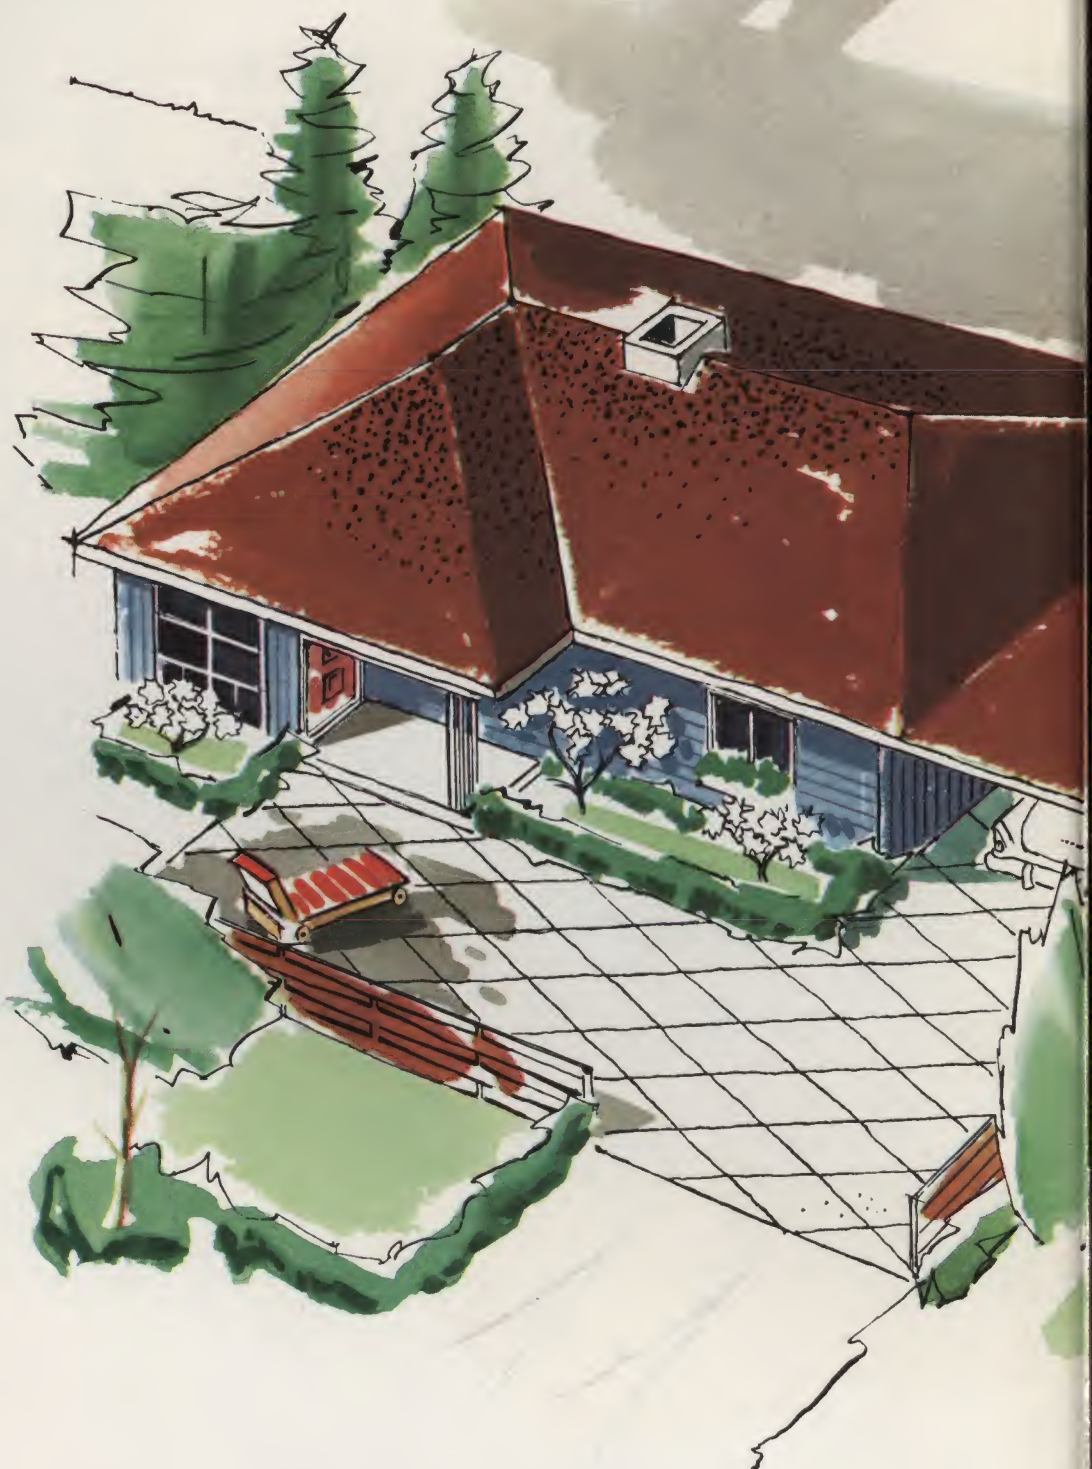

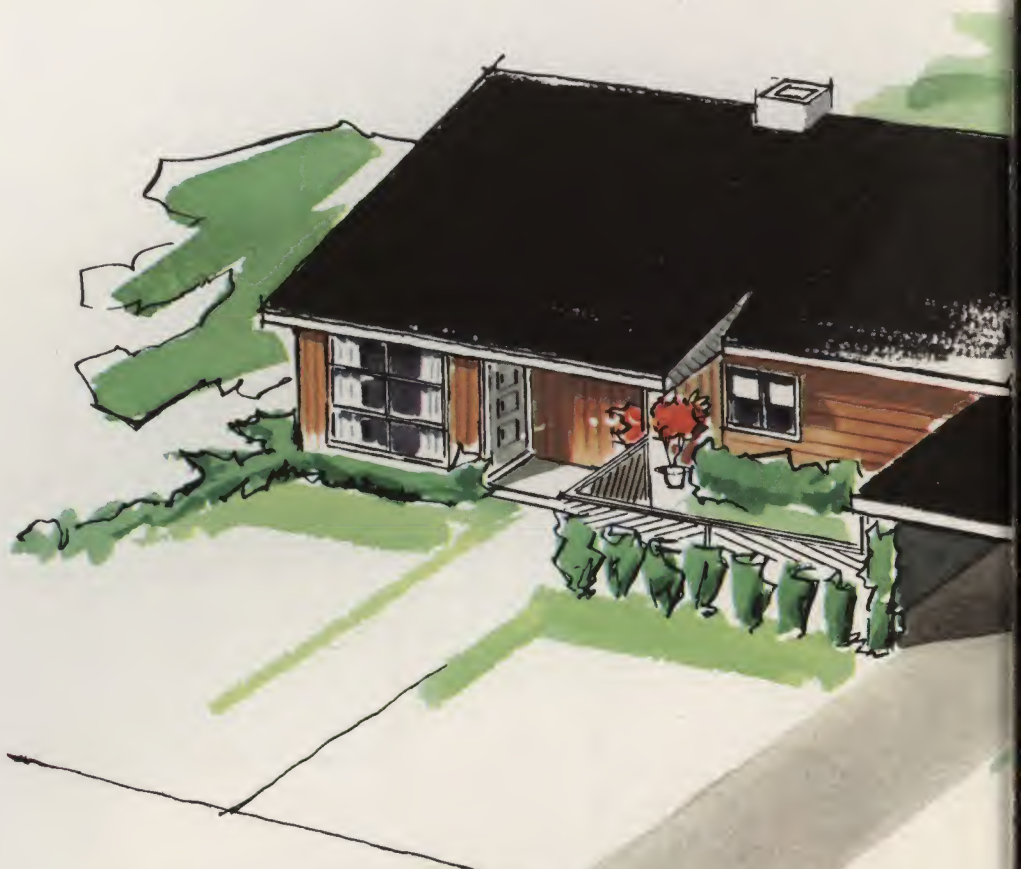

Real step-saving efficiency in P & H Home kitchens. Lots of cabinet and counterspace, too.

Plenty of storage space in P & H Homes. Closets with sliding doors, built-in drawers.

Entertaining—any serving—is easy with this pass-through between kitchen and dining area.

Your **P&H** home is distinctively yours...

Here are the roominess, the design, the convenience and enduring construction that add up to better living in a home. Better living, and better investment, too. P & H Homes offer more home for the money than just about any

others in the \$6,000 to \$20,000 class. Spacious, efficient floor plans, plenty of storage space and really top quality building materials and craftsmanship—all make P & H Homes the best buys in their range.

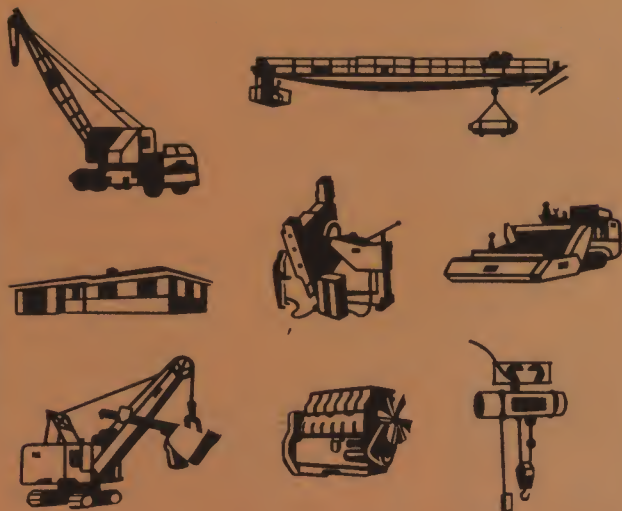

See how little it costs..
to live so well...
